aheric@coj.net

## Project Description

This \$2.1M project includes but is not limited to the following: final design, permitting, construction of the Catherine St. Improvements, and specified utilities to the Fire Museum. This proposal includes standard Tremron pavers for the brick paver path, embankment, lime rock base, asphalt, concrete curb and sidewalk, and a vortex structure for water quality with associated drainage. This proposal includes the utility connections to the recently relocated fire museum (one-inch water main, six-inch sanitary sewer service, and 208-three phase power to a new meter can).
